LETTER FROM HENRY.

[Correspondence of the Louisville Courier.]

Reading Matter on every page. Why Wood Should be Preferred to Wheat. The Journal published an article, yesterday orning, with a heading the inverse of the above, and attempted to set forth reasons of preference for Wheat. Mr. Wood's friends will not shrink from a comparison of the merits of their candidate with those of his opponent, and we retort upon the Journal, that it is easy to show to all not brainless partizans who are wholly immersed n the molten lava of party conflict until they are leaf to reason," that Wood is the better man for the place. Extreme laudation of Wheat marks the article in question, not more prominently than ts insinuated, rather than expressed, disparagement of Wood. The subject is one which ad dresses itself to calm consideration, and in that spirit we wish to discuss it. The first trump sounded in favor of Wheat is, hat during his "ten months' " service on the appellate bench, "he has given entire satisfaction to the bar and bench of Kentucky." The truth is that Judge Wheat's service on the appellate bench utterly unmarked by anything like ability or

"But," continues the Journal, "his (Wheat's) ntire life has been unremittingly devoted to his he could not summon enough courage to enable him to face the people he has wilfully and know-ingly misrepresented. For one I am sorry he did not fill the appointment. It is no pleasant job to ofession. \* \* \* For more than thirty years e has been industriously and successfully enged in his profession. For ten years he served the capacity of circuit judge." As Judge Wheat "retired" from the circuit bench in 1856 another was nominated in his place-his expeience at the bar, according to the Jour nal's account, ran through a period of about eighteen years. In all that time his name never once appears as a lawyer in the printed reports of the decisions of the Court of Ap-We are told by well informed lawyers that they remember no case where it so appears, and if the fact is otherwise, let his friends point out the case or cases. The record, therefore, shows that Judge Wheat never rose at the bar so as to be trusted in the court of last resort. However varied his experience may have been before Jus ices of the Peace. County Courts, and the Circuit Court as a practitioner-of which we have not information to speak from-he seems never to have entered the Court of Appeals, unless as a spectator, till he took his seat as judge. The

We repeat that Wheat was never a man of any note, and never made his mark at the bar or on the bench. Youth and bad health are all which partizan unscrupulousness in its bitterest malignity can urge against Henry C. Wood. The editor dare not question the integrity, the ability, and the learning of one so well known. He well knows that no man in Kentucky, or out of it, ever had a more varied or heavier practice than Henry C. Wood, There is no difficulty in finding his name in high places and important trusts. We appeal to sensible, calm men to say what may we expect of a 'stripling"-as the Journal is reduced in its maignity to call Wood-who has done so much .-Inexperience or obscurity is not even charged, and the insinuation rather than charge of youth and ineligibility from not having served at the bar during the period prescribed by the constitution, is so grossly incorrect, that the editor dare

names of much younger men from his own sec-

ion are often met with in the reports of Kentucky

not venture on a direct assertion. Henry C. Wood was born in November, 1821, and is nearly thirty-seven years old-older than John C. Breckinridge when elected to the Vice Presidency of the United States. He graduated with distinguished honor at Center College, in September, 1841; studied law with Judge Bucker, one of the most, distinguished jurists Kentucky ever had, and at one time judge of the Court of Appeals; and commenced practice in the spring of 1843. He at once rose into notice and practice, being elected to the Legislature from Hart, his na tive county, in 1848 and 1849, though there was a 850, he removed to Louisville, and here, his suc-

arty majority against him of more than 200. So ighly did old Hart honor her worthy son. In ess was marked and immediate. Up to the fall of 1857 Mr. Wood was constantly engaged in his profession, except when in the Le islature, and then accepted the place of cas ier of the Branch Bank of Kentucky at Greensburg. He did not abandon his profession at all, and the Journal's statement that he has requently done so from ill-health is incorrect. Severe labor and unremitting study called for relaxation, but Mr. Wood's active mind and industrious habits could not brook idleness. His friends pressed upon him the responsible place alluded to, as affording hange, relaxation, and cool, country air. He vielded his own preferences for the time, and can now resume the profession which he honors with health and vigor entirely restored. It is thus seen that Mr. Wood's service at the bar is nearly long as the Journal makes Judge Wheat's to and that it is nearly double the constitutional eriod of eligibility. We are willing to admit hat Judge Wheat's health and digestion have never suffered from his labors or his studies.

No one can fail to see the insidious nature of the Journal's article. Its intense partizanism and party aim are poorly masked by hollow professions. The judiciary is nothing to him as compared with party, and his attempt at humbugging is not even respectful to those he would gull The cloven foot is too plainly discernable. Sensible men will vote for the man best fitted for the office, and that man is unquestionably Henry C.

The Journal's low insinuations as to the il health, ineligibility, etc., of Henry C. Wood, are pon a par with its insidious charges of emanciationism and anti-Lecomptonism against him Mr. Wood is a true pro-slavery, Lecompton Demo-crat, and the Journal slandered him when it insinuated that he was anything else. The charges that the maligner of the organ makes out against him are worthy of the source from whence they me. Mr. Wood, however, is enthroned in the great heart of the people, far above their baneful fluence. Like the sting of the viper which has missed its mark, all that the Journal has said, and can say, against him, is as harmless as the granny thrusts which the old tory made against his own country, and in behalf of England, upon the right of search, or as his treasonable efforts against the South, and in behalf of the North, upon the question of admitting Kansas into the Union as a slave State. We would rather have him abuse Henry C. Wood than to praise him, for his opposition to our candidate is infallible proof that our candidate is right. If he will abuse him his best rom now till August, Wood will be elected by a majority of several thousand votes over the heavy and slow Know Nothing candidate, whom the editor shall laud to the skies.

Vey Marshall did not Speak—E. P. Thomas of the Stump—Sam's Disciples Make Speeches—John C. Mon fort—W. A. Perry's Weakness for Blace

HENRY CO., KY., July 6, 1858. Editors Louisville Courier: In 11y letter to you dated 30th of June, I stated that Col. Marshall was expected soon to make a speech at Newcastle. I afterwards heard that he had agreed to let off the Black Republican gas, which had accumulated in his huge corporation, yesterday, it being our regular County Court day. Having some curiosity to witness such an interesting event, I repaired to Newcastle early in the day, for the purpose of hearing whatever Col. M. might have to say to his onstituents in defense of his recent sale of himself and of his party to the Black Republicans .-When I reached Newcastle I was informed that Marshall had not arrived, but that he certainly would be there, as he had been loaded into a two horse wagon early in the morning, and started to wards the place of his appointment to speak. It was further said that a mud hole on Drennon might detain him some time, as he would have to be unloaded and rolled around it, then reloaded, all of which might consume three or four hours, but he could still get to Newcastle by three or four o'clock. Three, four, five, and six o'clock, P. M., finally came, but Marshall did not come. The reason of his failure to come is not known. It is probable that the driver of the team was imprudent enough to attempt to drive through the mud hole with Col. M. in the wagon, and that he is still the mud, with his wagon and team as badly ired as Col. Marshall is in politics. It is possi however, that he heard how many of his ner supporters are against him now, and that

ride several miles to town this hot weather to hear eech, and then be disappointed.

ost of the county candidates made speeches in the afternoon. E. P. Thomas made a speech of more than an hour in length, in which he showed himself quite an orator, as well as a most excel-lent clerk, the latter of which is conceded by all parties. None of the other candidates spoke as long as Mr. Thomas did. Some of the speeches were rich, and were, doubtless, interesting speakers. For instance, one of Sam's disciples assured the "dear people" that he will be their candidate on the first Monday in August, and will beat his opponent "shore and sartain." Another one did not want any Democratic votes. (He need said he had "got to like some of the Democrats very well." No doubt of it it, but his misfortune is that none of the Democrats like him well enough to vote for him. And many of his own courts like him in the converte like him party like him in the same way.

Jno. C. Monfort, who is at the head of the coun ty ticket, being our candidate for County Judge, will beat his competitor so badly that the latter will be ashamed to acknowledge, after the election,

that he was a candidate at all. It is due to the Know Nothing party, in Henry county, to say that they did not bring Mr. Perry on the track by convention or otherwise. He is a trembling Pope fearer, and is said to be "all right on the goose," but the Know Nothing party in Henry is very generally sound on the slavery question, and I do not think they could be induced to indorse, by a party nomination, a man whose hostility to slavery is so well known as is that of W. A. Perry. He is one of the few K. N's. in this county who approved the course of the editor of the Journal in advising the brethren in Indiana to vote for the Abolition candidate for Governor, in 1856. The Red Bills. The article copied below is from the New Or eans Delta, of the 1st inst. The likeness only proves the samewhether rejoicing under the name of Plug-Uglysm, Thuggery, or jail cliquery. Fellows-"felow-feeling makes one wondrous kind"-walk out of court here as leisurely as they walk in, with ome little farce or fiddling to amuse the interval: The "Red Bills" Nos. 1 and 2, as our readers, The "Red Bills" Nos. 1 and 2, as our readers, and indeed the readers of all the city journals, are aware, are quite notorious characters as well as reputed Thugs, in this city. "Red Bill No. 1," alias William Wilson, has been tried and convicted by an intelligent jury, in the parish of Jefferson, for intimidation, assault and battery, etc., at the control of the c polls, in Carrollton, and while sentence was being passed on him by the judge, was permitted to walk leisurely out of court, and has not since been arrested. Are the police authorities and police of the city, every and all the Thugs in town, unable, or unwilling a arrest notorious malefactors? If they answer in the affirmative, or if their silence and inaction

n the premises, imply an affirmative response, hen they will have no cause to complain if the people, forgetting that such a conservative organzation as a police force exists, take the matter nto their own hands. That's all. THEATRICAL.-The Chicago Journal says in re

gard to Thalberg's abrupt termination of his Westrn concert tour: "The manager requests us to announce to the public that, owing to circumstances which render Mr. Thalberg's immediate return to Europe neces-sary, the concerts advertised in the West will be week or two since, and gossip asserts that the yed monster." Mdme. de Wilhorst has failed to obtain an opeafter singing at two or three concerts in Paris, and giving one of her own, became discouraged, and will shortly return to the United States.

FOLLY REPENTANT .- We published the elopement of a married woman with a man from Hartford, Conn., a few days since. The New Haven Register adds this chapter to the affair:

The poor woman who abandoned her home and family in Hartford, a few days since, in company path of rectitude, left her unprovided for, and in a paroxysm of grief and disappointment, resolved to end at once her misery and shame, by death; but an over-dose of the poison prevented its ef-fect, and we believe she is now at the Hospital un-der medical treatment.

Who Pays?

The Know Nothings have appointed two meetings of their party for this evening, one at the Union engine house, and the other at the Washington engine house. Who gave them authority to take possession of the public property and use the gas in the engine houses, which is paid for out of the city treasury? This thing has been going on ever since the origin of this party, but the Mayor and Council being members of the "order," not a word has been uttered by any of them against this iniquitous practice. If the Democratic party want a room to meet in, the members of the party pay the rent of it out of their own pockets, whilst at the same time they are paying their proportion of the cost of the gas

Billiards.—An interesting game of billiards was played at Albany, Thursday, between Phelan, of New York, and E. Crossman, of Albany. The proposition was to play nine full games, of one hundred points each, and the man who won five of them was to receive the money—Phelan to "discount" Crossman's game. This is considered great odds, and for the benefit of the uninitiated the Atlas states that it consists in this: A is to discount B's game; therefore every time that B makes a count, whether it be I or from that up to 50, just as many are erased from A's game. It will be perceived that the odds are greater than two to one. Eight games were played, and each had won four. The money depended on the last game, which was won by Crossman.

The old tory of the Journal is terribly aroused at the idea of Henry C. Wood being found upon the stump in a judicial race. He insinuates that Judge Wheat is too dignified for such a thing as that. We wonder if dignity has as much to do with Wheat's absence from the stump as laziness? We have heard of inertia being called by very strange names, and as the editor of the Journal is given to strange things, he will be allowed to call Judge Wheat's laziness dignity.

The truth is, Judge Wheat would never do to stump a district composed of twenty-one counties. through with more than a tenth of the number He is too slow and heavy and lethargic for such an undertaking. A single county, or at most a Circuit Court district, would be large enough for his energies. We understand the reason for this action on the part of the Planters' Bank is this: Some time since, the Planters' and Union Banks made a proposition to the Bank of Tennessee for a resumption of specie payments at a specified time, giving the Bank of Tennessee assurance of assistance in the event a run should be made upon that institution. It was thought this proposition would be acceded to by the convention of the officers of the Bank of Tennessee held in this place on the 14th ult., but that conneld in this place on the 14th ult, but that con-ention resolved not to resume specie payments t present. Since then an effort has been made to effect an arrangement by which daily settle-settlements should be made between the three bonks named, upon terms that would place them upon an equality. But for satisfactory rea-sons, we suppose, the Bank of Tennessee would either accept nor propose terms, as we under

The Planter's Bank is paying out none but its own notes, and paying specie for them upon demand, and the Bank of Tennessee having refused to make such an arrangement with the Planter's Bank as would make its notes as good to the latter as its own, they were thrown out on Monday, and have not since been received. The Planter's Bank claims to have been prompted to this action from no desire to injure the Bank of Tennessee, but to protect its own interest.

The Bank of Tennessee is just as solvent now as it was last week, when its notes were received on deposit by the Planter's Bank. The only difficulty is, that it has not resumed specie payments, and will not make such an arrangement as the Planter's Bank deems necessary, for the redemption of its notes taken by the latter.

### LOCAL MATTERS.

The wife of Chas. Rohr, who keeps a coffee ouse, was attacked with sun stroke on Wednesday, and yesterday was still very ill. She will probably recover.

SAD ACCIDENT .- Two little boys, at Red Mills Ky., sons of Wm. Wood, Fsq., were struck by lightning on Saturday last. One was killed, the other it is thought, will recover.

DROWNED .- A German boy named Phister, aged years, who formerly lived in Louisville, was drowned while bathing, at Utica, Ind., on Wed nesday. His body was recovered the next day.

ARKESTED .- Capt. Riviere, the French officer was arrested at Hoboken, near New York, on Tuesday. He was held in \$1,000 to answer the charge of abducting Miss Blount. The mother of the girl who assisted her to flee with Riviere, is said to be insane. It looks like insanity certain ly, when she wishes her daughter to marry a man who has a wife a lready.

THE OLD STORY.-Tim Ryan was arrested yes terday for brutally whipping his wife, and taken to jail. Just as soon as the poor woman could get there, she went taking son thing to eat, and implored the jailor, to give it to him. are better than men.

We are requested, by Mesrss, S. G. Henry & Co., to state that in addition to the glassware groceries, and other articles advertised for this norning, (Friday) will be added an invoice of cabinet furniture and chairs, just received, and to which the special attention of furniture buyers s called. An invoice of china ware will also be included in the sale.

The weather was very warm again yesterday, the heat of the sun at midday, and during the afternoon being intense. In the shade, as in dicated by the thermometers along Main street, the mercury ranged from 89 to 92.

Great complaints are now being made of the ong continued drought, which is killing vegeta-

THE INCREASE OF LICENSE RECEIPTS .- Joe Jeans has been License Inspector of this city for five years. During that time there has been a total in crease of \$30,000 license money paid by merchants, traders, etc., or an average of \$6,000 each year over what was paid before he filled the place. Jeans is indefatigable and reliable in whatever capacity he may serve.

SUIT THREATENED .- A citizen of this place got on a "high tight," yesterday, and during the process of steaming up, choked and maltreated an elderly man. For this and his noisy demonstraions he was conducted to the lock up. A few nours confinement sobered him, and he sent off and procured bail. When released he announced the intention of suing the city for \$10,000 dama ges, for false imprisonment we suppose.

Money Lost Overboard. - Wednesday evening Capt. McClain, of the little steamer Bowling Green, dropped his pocket-book overboard in 10 or 12 feet water. It contained about \$600 in paper, and \$40 in gold. Several expert divers tried to find it, but up to last evening had not succeeded. The Bowling Green had been taken to the ship-yard of John Cunningham, we believe, the veteran builder, and there, while stooping over a skiff, the money was lost.

To Consumptive Invalids, and all those who suffer with deseases of the Throat and Lungs-We are equested to say, that owing to the number of invalids who have written to Dr. Flower, and are on their way to this city in order to consult him, that Dr. F. has returned to Louisville, Ky., and will re main at his office, on the corner of Centre and Green, during the summer months. He is desirous of establishing a permanent office in this city. His peculiar theory is rapidly gaining for him a successful practice. He offers as usual,

New Music.-The enterprising and tasteful publishers, Messrs. Tripp & Cragg, have placed us under obligation by laying on our table the last half of a series of "12 Favorite Pieces for the Violin and Piano," composed by John Horn. The first two are gems from "Der Freischutz," "Terzetto" and the famed "Chorus." The next is "National Gallopade," then a Waltz (Philippienen) and two Polkas (Serenaden and Betvedere.) The whole series is well worthy the attention of ama-

engers on the Strader concluded to celebrate the Anniversary of American Independence. Accordingly James Cromie, Esq., of Louisville was called to the chair, and Col. Thos. M. Hicks, of the same city, appointed Secretary. Prayer was read, and then Mr. Samuel V. Hunter, of the U. S. Navy, read the Declaration of Independence. At the conclusion of this Judge Flynn, of tory and eloquence. Charley Topping concluded the exercises by singing the Star Spangled Banner. The affair, altogether, we are told, was very spirited and patriotic.

RESIDENCE FOR SALE.—Gray street is one of the loveliest streets in our city for a residence. Quiet, neat, and attractive, it combines all the sweets of a city home. A nice cottage residence, with a lot 30 feet front by 200 deep, is offered, upon this street, for sale. See advertisement in another column, and go right off and buy it before some one of taste and discernment gets the start of you. Property is low in the city at this time, and there is no danger in buying for a speculation, if not wanted for use. Houses and lots are bound to go up from this time forward, and if the August election goes right, they will advance very ra-

A BEAUTIFUL RESIDENCE.-We enjoyed the pleasure, a few days since, of going through an elegant new residence on Third street, between Chestnut and Broadway, just built by one of our enterprising merchants, Geo. W. Small, Esq., of the well known firm of Hite & Small. The house s beautiful in design, exquisite in its finish, and thoroughly complete in all its details and arrangements. It is built in the most elegant and elaborate style, and yet is entirely free from the gaudy ornaments and showy tinsel that disfigures so many of our private residences. For solid comfort and real convenience, we doubt whether Mr. Small's house has its equal in Louisville. It is an ornament to the portion of the city in which it is located, and reflects credit alike on the liberality and good taste of its owner, and the science skill, and judgment of those accomplished architects, Messrs. Stancliff & Vogdes, who drew the plans and superintended the entire construction of the building.

NOVEL SHOOTING MATCH .- Capt. John Travis i determined to keep the people here astonished with his use of the pistol. Having abandoned his idea of shooting oranges from a living boy's head. e has resolved upon showing his skill in a manner no less wonderful, if not so dangerous. He as made up a shooting match with J. J. Breckinidge, of Kentucky, upon the following terms: Breckinridge is to shoot his rifle a distance o

00 yards, off hand, at a target, 20 shots. Travis s to shoot the pistol made by Morgan James (s peautiful pistol, which we have heretofore described) a distance of 100 yards, with a rest, the same number of shots. The bullet holes in the target are then to be measured from the center with a string, and the number nearest to the cener are to determine the winner. The shots will be made at the Oakland Race Course, near this city, on the first of October next.

Now, there is no doubt that Capt. Travis i naster of the pistol, but he need not feel too sure of winning this \$200. Breckinridge is a Kentuckian, and the Kentucky boys know how to handle the rifle as well as Capt. Travis does the pistol. We hope that Breckinridge may put every bullet right through the center, and after this is done, Capt. Travis may come as near to the winning point as he likes. They say the Captain can shoot just where he pleases, and we hope he can, but we don't want him to beat a Kentucky rifle with his stump of a pistol.

INQUEST No. 38 .- Held at Brownell's factory Market street, between Sixth and Seventh, Wednesday evening, July 7th, on the body of Lewis H. Reau, aged twenty-eight years, unmar-ried, with means and bright prospect. He was a machinist, and had been one of the principal workmen in the establishment for years. While endeavoring to adjust a misplaced band, or one that was likely to become misplaced, as was manifest to those in the factory familiar with the same, he was caught by the arm, drawn inwards, same, he was caught by the arm, drawn inwards, and upwards, among the bands and machinery, and, by the powerful and rapid revolutions of the same, crushed to death in a moment.

The verdict of the jury was—"That the said Lewis H. Reau came to his death by being accidentally caught in the machinery of said factory, and instantly killed, on the evening of the 7th inst., between 5 and 6 o'clock."

The Rathway Republican says that whe Senators of the United States and others of the highest standing, socially and politically, openly declare "Wood's Hair Restorative" (sold by all good druggists) is all and more than all it pre tends to be, we cannot do otherwise than believe

We see that the United States has made an appropriation of several hundred scalping knives to one of the Indian tribes as part of its annuity.— As it is thus providing for removing the "capilla-ry substance," will it not be well to order several ousand packages of Restorative to restore the heauty to the denuded poll, and not leave naked less "where the hair ought to grow?"

Meeting him some months after, what was my astonishment at finding him a hale, hearty man; he told me he now weighed 200 pounds, and that this wonderful change had been produced by Bærhave's Holland Bit ters, to which he attributed solely his restoration." jy5 d3 MW&F

GREAT CURE AFTER THE PHYSICIANS HAD FAILED. RUSSELLVILDE, OHIO, Jan. 10, 1855.—Dr. C. M. Jackson—Dear Sir: "We would inform you that we are out of Hoofland's German Bitters, which are very ready sale. One of our neighbor's has been doctoring for some time, (we think about two years, with all the doctors in the country,) but all on avail. He looked as much like a dead man go ing about as anything we can compare him to-ing about as anything we can compare him to-His disease appeared to be an overflowing of the gall. NOTICES. The Elixir, prepared by Dr. Jas. Williams for the cure of Dyspepsia, (as advertised in another column) has, by its own merits, obtained for itself so high a reputation in Philidelphia, that physicians acquainted with its properties are using it themselves and prescribing it to their patients, convinced by observation of its power in restoring the disordered digestive organs to healthy function Numerous cases of Dyspepsia of the most aggra vated character, which were abandoned as incura ble by some of the medical faculty, have, by the use of this "Elixir" alone, been restored to perfect health, as attested certificates testify.

LABOR-SAVING MACHINE.—The most important of the public generally is a Washing Machine, nanufactured by R. D. Porter & Co., of this city. These machines have been tried by a large num-ber of our best citizens, and have given satisfac-tion to every one who has used them. The machines are cheap, simple, durable, and not liable to get out of order. A child of ten years can un-destand and work one of them. It is a great savng of time and labor; it does not rub off the but ons, or injure the finest fabric in washing; it will wash anything from a pocket handkerchief to the argest size quilt, and do the work quick, and do largest size quit, and no the work quick, and up it well. In proof of the above, we can refer to a large number of highly respectable persons who now have the machine in use, and, in addition to this, give any one the privilege of trying the machine before purchasing.

Prof. Chas. De Grath's Electric Oil THE FRIEND OF MAN.

A S an example of the estimation in which it is held by one of the ablest writers, jurists, and writers on law, &c., in this country, we will give a letter received by Prof. DeGrame from John Livingston, Esq., editor of the well-known Monthly Law Magazine, 157 Broadway, New York. A word of such testimony is of more weight New York. A word of such testimony is of more weight mong the best classes of the country than volume GIRARD HOUSE, Philadelphia, May 7, 1856.

Gerard House, Philadelphia, May 7, 1856.

Prof. Charles DeGrare: I freely give it as my opinion that your "Electric Oil" is among the most wonderful remedies of modern times. At the earnest request of a lady who alleged she had been relieved of a most painful affection by its use, I was induced to try a bottle, though at the time of purchasing I fully believed it to be a quack medicine and a catchpenny humbug. But a trial convinces me that it possesses a magic power, and its use will prove a blessing to suffering humanity. I recently took a cold from sleeping in damp sheets, and my neck became so much swollen and painful that I could not turn my head.

After using, without success, everything prescribed by After using, without success, everything prescribed by my physician, I last evening tried your Electric Oil. This morning I am well, the relief having been as com-

te as it was installed.

[From the Cincinnati Price Current.] Hogs in Kentucky.

We have received from our correspondent at Frankfort, Ry., the following official statement of the number of hogs over six months old, in the several counties of that State, as reported by the Assessors to the Auditor. This report embraces over one-third of the State. It will be seen there is a large falling off as compared with last year, there is even a slight deficiency as compared with 1855—the short crop year. Reports from the remaining counties will be given to our readers as soon as returns are received at the office of the State Auditor. returns are received at the office of the State Auditor:

Final Sale of Lots IN KENTUCKY CITY!

On Monday, 27th of September, 1858, WILL commence the second and final Sale of Lots in this growing and most interesting YOUNG CITY.

The Trustees, in announcing this sale, feel warranted in assuring the public that at no point in the West can there be found a better chance for safe and profitable investment. KENTUCKY CITY

kentucky city
is located on the east bank of the Mississippi river, twenty miles below the mouth of the Ohio river, at the first eligible highland, and in point of fact, being the mouth of the Ohio river; surrounded by a high, leatiny, and fertile country, rapidly growing in wis! h and population, with a salubrious climate, generous, liberal and enlightened society. There wanted but \alpha > lurther feature to make this the most commanding point on the "wrest." ened society. There wanted out 0.5 in their feature to make this the most commanding point on the "great Father of Waters"—this want was an uninterrupted and general outlet to the interior, so as to accommodate the interchange of commodities. That want is now fully met by the established system of RAILROADS,

RAILHOADS,
which has fixed Kentucky City as the center of a network of railroads stretching out and affording connections in all directions with the interior and with the cities and lakes of the North and East, and ramifying throughout the South and West.

That the public may not be led off by suspicions that this is a merecity upon paper, we request you to enquire—to come and see for yourselves.

See the Map—Kentucky City is the northern terminus of the Great Mobile and Ohio Railroad—460 miles long.

See also our railroad connection by Union City and of the Great Mobile and Ohio Railroad—460 miles long. See also our railroad connection by Union City and along the Nashville and Northwestera Railroad via Parlis and Clarksville to Nashville, 170 miles. Also, by Kenton and along the Memphis and Ohio Road to Memphis, about 160 miles. Also via Jackson, Tenn., Holly Springs, Canton and Jackson, Miss., to New Orleans, 500 miles. Also via Corinth, thence along the Memphis and Charleston Railroad to Tuscumbia, Huntsville, Chattanooga, Knoxville and the East, and with Atlanta and Savannah, Georgia. Also by the Fulton and Texas Railroad via Little Rock, through to Arkansas and Texas to the Pacific Ocean.

Also, by the Iron Mountain Railroad to St. Louis, 150 miles. Also by the

STEAM FERRY PACKETS

plying to and fro with Cairo and the Illinois Central Railroad to Chicago and the whole northwest.

Intelligent, enterprising and practical men who will come and see and investigate in person, will be convinced that the extraordinary commercial advantages and facilities of railroad and steamboat transportation possessed by Kentucky City secures to this point requisites for manufacturing and commercial purposes, which must, of necessity, cause it speedily to become the great intermediate city between the NORTH and the SOUTH, at which the productions and manufactures of each section will be concentrated for sale, or to be exchanged for those of the other.

The Hon. Post-Master General, in a recent report.

The Hon. Post-Master General, in a recent report, says: "No man can look at the map of this country without his eye finally resting on the mouth of the Ohio as the center of population and commerce of the United States": States."

The sale is to be made without reserve and in good faith, and there will always be a reliable gentleman on the ground whose pleasure and duty it will be to give all needful information, and answer all written or oral interrogatories. Then let no one permit himself to be led off by rumor, when the facts are so accessible to all. Sale to commence Monday. September 27th, 1858, and continue until all the Luts, numbering upwards of four hundred, are sold.

TERMS OF SALE: From ten to twenty-five per cent, cash in hand, dependent upon the amount purchased; for the residue, a credit of one and two years, with interest.

TO CONSUMPTIVE INVALIDS! DR. FLOWER,

GRADUATE of the City University of New York, Associate of the late Professor and Lecturer to the Hunterian Institute, and Hospital Physician, London, gland, has taken rooms on the corner nter streets (east side of the First Presbyterian urch), Louisville, Ky., where he may be consulted filly for Consumption, Asthma, Loss of Voice, Brontits, Chronic Cough, and Pulmonary Pritation, also r Dyspepsia and France Computative, Chronic Dises, and all affections connected with or predisposing Consumption.

Dr. Flower wishes it distinctly understood that, although he considers Consumption a curable disease, and treats it as such, he does not pretend to cure those who have neither lungs nor constitution left. He would also add that he is accustomed to tell those applying their real situation, and none need apply who are unwilling to learn the truth. A curative treatment will of course only be undertaken in cases where there seems some chance of remedy. Where there is none, the treatment must be merely palliative.

The treatment employed is the breathing of Medicated Vapors into the Lungs, thus producing an action at the very seat of the disease, combined with constitutional remedies, which are safe, prompt, and effective. As Dr. F. is stay is limited, all who intend to consult him should do so at once. For the last six years Dr. F. has devoted his entire time to the treatment of the above diseases.

The River is slowly receding, with some thirty-four inches water on the falls last evening. In the canal there were four feet nine inches by the mark, but boats drawing 5½ feet water could go through. The weather is very warm and dry, the thermometer in the shade in the afternoon indicating 90 to 92 degrees. In the sun the heat was insupportable, and unless we soon have rain, the grass and nearly all kinds of vegetation will

be burnt up.

In the channel hence to Cincinnati, the mail-boat reports ess than seven feet water, the shoalest point being Rising Sun, where the Strader rubbed slightly coming down. The bars along the lower Ohio are beginning to show their backs, with but 6½ feet at Portland and New Albany bar. It was also quite shoal at Flint Island and French Island bars, but the water has cut out the sand, and the Alvin Adams, which arrived last evening, reports seven and a half feet water at Flint Island.

THE DISASTER OF THE GALENA IN THE UPPER ISSISSIPPI.—We learn that this boat, which was destroyed by fire, could have been saved if a sup-ply of water had been on the deck. The fire commenced around the starboard chimney, and of so little consequence was it when first discovered, that a single bucket of water would have been sufficient to extinguish it; but before it could be obtained, the fire had spread over the entire right hand side of the boat, thus cutting off the use of the stairway. The alarm was speedily given, all the passengers having retired for the night, and m all sides, without regard to quality or quan- TAXES! tity of dress, men, women and children rushed to the forward part of the boat, as the only place of

But a few minutes elapsed after the alarm was given until the boat struck the shore, toward which she was directed by the pilot on the dis-covery of the fire; yet so fierce were the flames that only one plank could be run to the shore, and over this crowded all not intercepted by the fire. ne back of the flames jumped into the water

and swam ashore.

A young married man from the East, with his bride, was on the Galena, intending to find a home in Minnesota, and having in his possession fifteen hundred dollars. He had neglected to place it in the safe, and carried it with him into his stateroom. The money and all his baggage was burnt with the boat; the young couple barely escaping

Capt. Lamb of the Adams, reports both rivers falling fast, the Mississippi having receded altogether four feet at Memphis, with the water still over the banks at Wolf Island.

The Ohio was falling fast at all points, but the channel was "cutting out," and better, or rather more water found at Flint Island than had been reported. Capt. Lamb says there were seven and reported. Capt. Lamb says there were seven and the control of the contro reported. Capt. The Cumberland river was reported rising fast at Nashville, from the effects of recent rains, the Cuba that arrived at Paducah, reporting four feet water on the shoals Tuesday night.

As the Camberland is rising, there ought to be a rise in the Kanawha, as they head in the same region, and no doubt, there will be another slight swell here. swell here.

The officers of the Jas. Montgomery report the Mississippi falling all the way. Another crevasse had been made near New Orleans, just above the Bell crevasse, on the other side of the river. At Mr. Fayzend's place it was about 20

The river in the vicinity of New Orleans had not risen two inches in as many weeks, either above or below the crevasses.

It was feared that the break in the levees lead ing into the Yazoo Pass, Coahoma county, Miss., would prove very disastrous. The crevasse at Delta has a fall of ten feet, washing the levee on either side with great rapidity. The water from

the Mississippi running through this crevasse empties itself into Moon Lake. There are several crevasses in this county, one on Col. Saunders' plantation, one seven miles below, on Milton Dobbins' plantation, one near Temple Stewart's and one at Lewis Bayou Swamp levee. The St. Louis papers of Wednesday have

the following items:

The river since our last report had fallen 3 feet at 6 'clock last evening, and is still receding. The upper ivers are all reported falling by the last arrivals. The reather continues very hot and sultry. Business on he levee is brisk for the season. The Upper Mississipi is sending down large quantities of produce, and yeserday the levee was well piled with freight from one and to the other.

THE WABASH .- The overflow first, and now the nd bars, have made the Wabash a very precaious river to navigate. Above the Grand Chain Rapids a huge sand bar has formed, which mpletely obstructs the river, and suspends navigation beyond that point. The bar has thrown the entire current to the Indiana shore, over the ledge of rocks, making it unsafe for any steamer to ascend or descend. It is thought that two or

three months will be required to remove the bar.

THE RIVER OPPOSITE VICKSBURG.—We learn from accurate measurement, by a scientific gentleman, that the Mississippi river opposite this point is now forty-eight and a half feet above lowwater mark. The present depth of the channel just below the wharf-boat, opposite the Prentiss House, is ninety-seven feet. The usual average width of the river between Vickesburg and Description. House, is ninety-seven feet. The usual average width of the river between Vicksburg and DeSoto, is twenty-six hundred feet—its width now, from the extremity of the water on each bank, is near

A singular fact connected with the present rise of the river, we learned a day or two since from our esteemed friend, T. C. Flournoy, Esq., of this county. At his place, in Mooney town-ship, 50 miles below Helena, there has not been a a variation of half an inch in the state of the water for the last three weeks, whilst here it has isen at least three feet .- Helena Shield, June 26th. FOR OWENSBORO AND EVANSVILLE.—The popular packet, John Briggs, the people's favorite, starts to all landings as far down as Evansville, this af-

ternoon at 4 o'clock, from Portland. Capt. Cobb is a clever and thorough boatman, and P. M. Garner, the clerk, spares no effort to please and accommodate all on the route, maintaining fair and permanent rates, which makes the Briggs a reliable packet and a general favorite. For New Orleans.—The fast and commodious backet Woodford, having been detained, takes her

departure to New Orleans this evening at 4 o'clock, from Portland. She is in charge of the veteran Capt. Jas. Mather, one of the most successful and prudent commanders in the trade. The Jas. Montgomery, Capt. Sam. Mont-omery in command, returns to New Orleans this vening. She starts at 5 o'clock, from Portland, offering choice fare for passengers, and in charge of prudent and skilful officers. The clerk, Mr. Lowry, is always courteous and attentive.

The Portland wharf, yesterday, was pretty active, with quite a number of boats receiving and discharging cargoes. The city wharf, however, presented a deserted appearance, there being but a single boat in sight in the evening—the Dr. Kane—with a large barge in tow.

The Messrs. Gaff, of Aurora, have contracted with Temple & Robinson, of Madison, for a steambout to take the place of the Forest Queen. The boat is to be 220 feet long, 35 feet beam, and 5½ feet hold, with side wheels.

BY C. C. GREEN. Public Sale of a Farm and Tavern Stand. I will sell on FRIDAY, the 9th day of July, 1858, at I o'clock, P. M., on the premises, a well-known Tavern Stand at public sale, situated in Jefferson county, on the Shelbyville turnpike, 12 miles from Louisville. The Farm contains 175 acres of Land—145 acres good Land, cleared and o'in a high state of cultivation; the balance heavily timbered with choice timber, such as walnut, cherry, sugartree, such as grows on fertile land. There are 50 acres which have been highly manured.

The house has been kept as a tavern for the last 30 years, and commands a large run of custom. The stand is the headquarters for drovers, stock men, travelers and movers. There are six never-failing springs and two wells on the Farm that never fail. There is a frame Barn with large threshing floor, stolls, cribs, and outhouses generally. The stable has capacity for 40 head of horses. The Dwelling contains ten rooms, all comfortable and in good order.

TERMS—\$2,000 cash; balance in three equal annual payments, without interest. A lien will be retained to secure the deferred payments. Possession will be given on the 10th of March, 1859.

ANOTHER TRIUMPH!

The subscriber respectfully invites the attention of the public, and of purchasers particularly, to the superior PREMIUM PIANOS, Manufactured by him. A splendid assortment constantly on hand.

Our Planos have received a Premium two years in succession, 1856 and 1851, at the Pairs of the American Institute, Crystal Palace, in competition with most of the leading manufacturers of New York and Boston, and are unquestionably of the best quality of tone, full, round and brilliant, as well as finish and durability, and we flatter ourselves, by the approval of renowned artists, in venturing to say that our Pianos stand superior to many others, and equal to any Grand Piano in regard to volume of tone and elasticity of touch, combined with the greatest firaness, which is very rarely met with in other Pianos.

We respectfully solicit an examination from strangers and friends, to convince themselves of the above before purchasing elsewhere. All our Pianos are warranted.

D. R. GATES has the pleasure of announcing to the public that he has taken the office formerly occupied by Dr. KING, and permanently located in Louisville, Ky., where he would call the attention of all those afflicted with diseases of a private or confidential nature, to the new method of treatment as practiced in the English and French hospitals. Having for several years made this class of diseases a speciality, with the knowledge he has of them, warrants him in saying that there is no form of symptoms which they assume that is without a quick and permanent cure. Dr. 3.'s mode of treating these diseases is entirely new, having never been adopted by any other Physician in this country. PETER SMITH, north side Main str BLANK BOOK MANUFACTORY.
